Dear Sir or Madam, I am writing in regards to the National Association of Broadcasters using their money to try and stop satalite radio providers like XM from broadcasting instant traffic and weather updates. I pay for that service and no puppet in the NAB's pocket should dictate what I can and cannot hear. It should be the people who pay for and listen to XM that decide what they can or should broadcast. Reject petition 04-160. Thank You, Tom Woddail
